Your home deserves warmth and joy, and nothing brings that feeling better than displaying meaningful artwork. Isn't it time your dog took center stage?

Whether you're decorating your family room, hallway, bedroom, or kitchen, I'll help you select the ideal pieces and sizes that fit perfectly in your space.

I've got a personal touch in my home: My dog Gunnar's picture hangs in my office, and I get endless compliments from friends.

Not sure what would look best? Snap a picture of your space and text it to me! I'll show you a few stunning options to bring your walls to life.

On the next pages, you'll find a range of à la carte artwork options and digital collections, so you can choose exactly what speaks to you.
